Devun KantolaMay 27, 2015 Review of Jaye Murray's âœBottled Upâ •Bottled up isn't just an amazing read, it's a game changer. This book will show you how much grief and trouble one's life can actually withstand. Usually a story is about a physically or emotionally hurt soul, not this one. Our main character Phillip or âœPipâ • as he likes has lost motivation he doesn't ever show up to class and he never ever tries to fix his worsening drug problem. Phillip is in dire need of help to fix his life and only a few people can help. I feel that everybody has a place where they can find peace and quiet, a place where they can think and leave this giant world of problems. Unfortunately Phillips is an old Cemetery and again this place gives him easy access to drugs and self destructive

problems. Phillip is killing himself slowly and needs someone to step in and put out the roach. Our crazy story is written by a very talented author by the name of Jaye Murray, a man who lives in New York and is or was a first time novelist with this great seller "Bottled Up." Jaye Murray has another big title called "Fat Kid Rules the World." Jaye Murray has written a lot about juvenile choices and lives through a sort of realistic fantasy style he has a very connective yet confusing way of putting things. I love the way he writes and it almost makes the book speak to a person in a very special way. His work teaches people a lesson and tells them how things can or even could be if certain choices are made. I would even say that Jaye Murray knows how to get people to continue reading and thinking. This book is full of heart pounding events, it's also full of heart wrenching events. It keeps you reading and keeps you questioning.
