I read the paperback edition of the 1st harry potter book in french twice over the past 5 years. The 2nd time was recent and my reading french is now good enough that it took fire - I understood enough that it was much more of a pleasure than a painful task. Your french has to be of a certain level for this to work. I'd say intermediate-advanced. After guickly finishing the 1st paperback edition, I decided to try the kindle edition of La Chambre de Secrets on my iPad (iOS6). The purchase process is, I must admit, slightly confusing: you are directed to Pottermore to complete your purchase then you can download to a target device - I choose Kindle device I think. The process is not that difficult - simply a little different than the direct downloading. The absolutely awesome thing is that once I downloaded Chambre de S. and tapped on a word I didn't know, an amazing surprise - something like "dictionary unavailable - would you like to download it?" popped up. (must note that my iPad is set-up with french as the language in system prefs. I don't know if this was necessary or not) With a wifi connection, you can download for free the french-french dictionary (french-french! NOT French-english). Also selecting an unknown word also gives you links to check the word/phrase in wiki french or google.fr. Sometimes these are helpful - sometimes not. So IF your knowledge of french is fairly advanced - or maybe very advanced, this can be a wonderful experience for an adult. The books themselves are captivating. I find the vocabulary quite challenging. Perhaps it really is 4th grade, but there is guite a bit of vocabulary I had not

experienced. I am currently plowing through le prisonnier d'azkaban (significantly longer) and thoroughly enjoying that one as well.
