Customer Reviews

In general I am not too fond of poetry, be it adult or children's poetry. I ordered this book along with several others by Jack Prelutsky for my 4 grandsons ranging in age from 2 to 7. As I usually do, I read every one of them before they do. Since I am not as eloquent as the author I cannot find the appropriate words as to how to describe how special these books are. Every child and adult with a sense of humor should pick up at least one of Mr. Prelutsky's books and read it. Even though they are written for kids, as an adult I found them to be more than special. He is an excellent author who does things with words that will not only entertain you and any child that is lucky enough to own his books, but after reading them I would not be surprised if this introduction to poetry will result in kids at any age being anxious to read more of Mr. Prelutsky's books. This author is exceptional when it comes to putting into verse life the way kids perceive it. His expertise in making the verses flow and

rhyme so perfectly is a literary experience all children of any age should be exposed to. Any adult reading these books to a young child will not be bored and will actually look forward to the forthcoming verbal interaction that will be fulfilling for both the child and the adult. Some of his books are written for children that are reading on their own. These children will no doubt enjoy reading the books that were written for younger kids as well. Don't be surprised if they go back to these books over and over again even when childhood is just a memory. Do a child a favor and open the door to a very special reading experience that will not soon be forgotten.
