Customer Reviews

Perfect for my 7 year old. Some of the math is super easy, and some is more of a challenge. He's a huge NASCAR fan, so he really loves this book.

My son loves all things NASCAR and this book is also included. He happily reads this book and as a bonus it is an Accelerated Reader book!

Fun book to have with lots of interesting facts. We purchased for our nine year old as a gift and he loves it. It makes learning fun for those who like nascar!
