## Customer Reviews

Olympic Sports for Kids: Amazing Sports for Children of all Ages. Sports help children develop physical skills, get exercise, make friends, have fun and improve self-esteem. Basketball is one of the most popular sports in the world. Sprints are short running races in Track and Field. The most common distances are 60 meters, 100 meters, 200 meters and 400 meters. Long Jump - a track and field event, it is an attempt to jump forward as far as possible at a line after the athlete runs down the runway, they leap up and forward at the designated line. Badminton - a sport played with a net, shuttlecocks, and racquets. Gymnastics - a sport involving the performance of exercises requiring flexibility, balance and control. Taekwondo - Korean martial art with a heavy emphasis on kicks. Swimming - one of the most popular Olympic sports. The four main strokes in Swimming are: Backstroke, Breaststroke, Butterfly and Freestyle. My grandson is in 3rd grade and this book would be awesome for him. I believe this book should be a part of his extensive library. Something that should be a great read for him. He reads way above his age as he grows so does his knowledge of the world as did his mother at his age. Reading invokes imagination, knowledge from a foundational status. Reading makes the brain work where television arrests the brain function by not making any one think. I so do love these books for children and adults, making us think about what we can do

and what might be if we open our minds.\*\*\*\*I am grateful to have received this product at a discounted or free rate in exchange for a honest, fair, unbiased and non-compensated review. If you feel that this review has assisted you in making your decision about this product or your shopping needs.
