Customer Reviews

These are my husband's favorite books to read at bedtime to my daughter. They are short and sweet with all the princesses my daughter loves. I love that each book we buy in the series as different stories. We have a little collection of them now.

My girls love Disney princesses, and they love this book. It has a sturdy hard cover, and stories with the newer princesses (such as Princess and the Frog and Tangled) as well as the old ones. Would recommend.

Let's face it, this is not an award winning title but there is nothing particularly offensive here either. I

tend to be pretty picky about my children's book collection but I let this one slip through when my daughter saw it on the shelf at Target. The stories lack any real depth, and do not offer much extension of the original plots as other posters have mentioned before. The book does have two redeeming qualities though; the artwork is quite nice and the stories are relatively short. The downside is that you'll be bored to death after repeat readings while your 3-5 year old hangs on every word and begs for 'just one more' until 5 minutes turns into an hour and you've read the whole darn thing. If you're lucky, you'll both be asleep before you get there :)

I love reading to my granddaughter, but when it takes half an hour to read a story and you get the "again" every time, this book is a real hit. The stories are there, but without all the details. Great for a 3-year-old. I can read several stories and she's happy. The longer stories are great for building attention spans, but this is REALLY nice for bedtime!

I ordered this book for my 2 1/2 yr. old grand daughter, a 5 minute story before bed time is what I needed. She loves the stories and so do I. We love it! Thank you.....

I ordered this book because my twin daughters had outgrown their old books. This book looks great on the outside and inside. The pages are made from sturdy paper that does not rip easily. The stories and illustrations are great too. I would highly recommend this book to anyone with little girls.

I bought this book as a gift for a little girl. Love the concept of 5 minute stories since you can read as many or as few as you want. Looking forward to checking out more books in the "5 minute" story series!

I have a number of these books and the 5 minute books are great. Disney has a number of them. The stories run about 5 minutes or less and allows for an easy bedtime routine of a quick story. I would recommend any of the books. It makes a great gift.
